# KARACHI KOALAS

## A Robot Soccer Team

**SPEAKER: DR. SALEHA RAZA**

Assistant Professor at Habib University

**Thursday, February 18th 2016,  
12:30pm to 1:55pm,  
Soorty Lecture Hall, Habib University**

### ABSTRACT:

RoboCup Soccer is among the most challenging and exciting competitions within the field of Computer Science. The competition's stated goal is that "by the mid of the 21st Century, a team of fully autonomous robots should defeat humans in soccer".

KarachiKoalas is a RoboCup Soccer Simulation 3D team developed at the Artificial Intelligence lab, IBA. Established in 2011, KarachiKoalas managed to secure the 5th position at RoboCup 2013. In this talk, Dr. Saleha will talk about her exciting journey with KarachiKoalas.
