how to deepen

student learning

--in any subject--
with design

with *Prof. Rafe Steinhauer*

Assistant Professor of Engineering, Dartmouth College, USA

H-509, Horizon Studios
Wednesday, Nov 27, 6 - 7 pm

faculty workshop on deepening **student learning** *--in any subject--* **with design**

In this 60-minute interactive session, **Prof. Rafe Steinhauer (Assistant Professor of Engineering at Dartmouth College** in the United States) will share how he and his colleagues are helping instructors across Dartmouth **create design thinking projects in a variety of subjects (Humanities, Social Sciences, and STEM)**. This session will open with a short presentation on **how design thinking can deepen student achievement of any discipline's learning objectives**; next, Prof. Steinhauer will provide a workshop for each participant to **begin imagining the structure of a design thinking project in their course**. The session will conclude with a discussion/Q&A.
