

Faculty Positions for Fall 2017
Integrated Sciences and Mathematics
School of Science and Engineering

[Habib University](#), located in Karachi, Pakistan is inviting applications from enthusiastic faculty candidates passionate about teaching and undergraduate research in its [Integrated Sciences and Mathematics Program](#). We have an open search at all ranks in the field of Physics, Mathematics and Environmental Science.

Habib University is an undergraduate liberal arts and sciences institution that welcomed its first class of students in Fall 2014. Its unique framework which is strongly embedded in a liberal arts setting, offers its students the breadth and depth of knowledge in the humanities, social sciences and the natural sciences through a rigorous [Core Curriculum](#), coupled with intensive knowledge in these disciplines, a host of technical skills and vital soft skills; qualities that are highly expected of graduates trained for the global workplace. The university is currently offering four undergraduate degree programs including Computer Science, Electrical Engineering, Social Development & Policy and Communication & Design. With highly qualified faculty and a faculty student ratio of 1:12, the University ensures that each student gets the right assistance that is unique to their needs and is inspired by their individual passion and enthusiasm.

As part of a new institution, faculty at Habib University play a central role in designing frameworks that are central to pedagogical innovation, undergraduate research, institutional building and development. Faculty at Habib University enjoys co-teaching in an interdisciplinary, project based, student centric learning environment and thrives in involving its students in research, entrepreneurship, consulting, and other forms of professional work. Through its Office of Global Engagement, faculty members benefit greatly from the international connections of the University to advance their pedagogical skills and research efforts. If these ideas excite you, then we would love to hear from you.

Minimum requirements to apply for a faculty position include the following:

- Doctoral degree
- Passion for undergraduate research
- Excellent teaching and scholarly credentials
- Ability to work well in teams

All interested candidates can apply through our [online portal](#). The application package must include the following:

- Cover letter
- Statement of teaching interest
- Representative publications
- Three letters of recommendation
