

Job Description

Position Title	Assistant Manager, Front-end Web Development
Department	Information Technology
Reporting To	Manager Web & UX Design
Type of Position	Full Time

POSITION DESCRIPTION

Front-End Web Developer who is motivated to combine the art of design with the art of programming. Responsibilities will include translation of the UI/UX design wireframes to actual code that will produce visual elements of the web site and applications. The developer will work with the UI/UX designer and bridge the gap between graphical design and technical implementation, taking an active role on both sides and defining how the application looks as well as how it works.

DUTIES AND RESPONSIBILITIES

Primary responsibilities include but are not limited to:

- ✓ Top-notch programming skills and in-depth knowledge of modern HTML/CSS/SAAS and writing cross-browser compatible code.
- ✓ Ensure the technical feasibility of UI/UX designs
- ✓ Mobile first approach on developing designs
- ✓ Develop customized WordPress themes starter theme and taxonomy and code.
- ✓ Develop new user-facing features
- ✓ Build reusable code and libraries for future use
- ✓ Optimize application for maximum speed and scalability
- ✓ Proven working experience in Angular/React
- ✓ Experience with Restful services
- ✓ A solid understanding of how web applications work including security, session management, and best development practices.
- ✓ Collaborate with Software Developers to perform front-end development of custom applications
- ✓ Aggressive problem diagnosis and creative problem-solving skills
- ✓ Strong organizational skills to juggle multiple tasks within the constraints of timelines and budgets with business acumen
- ✓ Ability to work and thrive in a fast-paced environment, learn rapidly and master diverse web technologies and techniques.
- ✓ To undertake any other duties as required by the line manager.
